

Transitions

PRO

For presentation mode

To change the transition associated with the selected idea space either click the Idea Space tab in the inspector bar then click the Transitions tab, or see the Transitions panel in the Inspector shelf under the Idea Space tab.

Idea Space Transitions

For Curio Professional customers, you can specify a default transition to use when stepping through idea spaces during presentation mode.

However, this can be customized for a specific idea space if you wish using the transition inspector.

Choose the type of transition you'd like to use, or none if you don't want any animation between slides. Your choices include Apple's standard Core Animation transitions.

Once you choose the type the available transitions will be displayed so you can choose the desired transition.
