

Interface Tour

The core components of Curio's interface

Idea Space

What you're looking at is an idea space, Curio's freeform notebook page.

Everything you find on an idea space is a figure of some type. A figure can be text, an image, a PDF or Pages file, a live WebView, or even a movie.

It could also be a type of figure we call a *collection figure* such as a list or mind map. These are figures that contain and lay out other figures within itself.

The Shelf

You can't see it now but there's a handy utility Shelf available on the right side of the window.

You can take a quick peek by clicking the **Inspector** button  on the toolbar.

We'll discuss the Shelf in detail later... so click the **Inspector** toolbar button again to hide it for now.

Organizer

Your Curio project can contain hundreds of idea spaces and documents all neatly organized here in the Organizer.
