

Part 1: Introduction

Creating Organizer Items

Click the Add button in the toolbar then choose an item from the popover that appears.
In the Idea Space Gallery you can choose from your personal or bundled styles and templates.

A *style* defines the look of the idea space with no included content.

A *template* defines the look and includes boilerplate figures and other content to help you get started.

Tip: Shift-clicking the Add button will add a new blank idea space with the same style as the current one.
