

Part 1: Introduction

Interface Tour

Organizer

Your Curio project can contain hundreds of idea spaces and documents all neatly organized here in the Organizer.

Inspector Bar

The Inspector Bar is where you go to change attributes associated with either the selected item in the Organizer, or selected figures within the current idea space.

Navigator

Here you can quickly jump to any location in your project, or step through the idea spaces one-by-one.

Idea Space

What you're looking at is an Idea Space. It's like a special piece of paper that can contain figures, images, movies, songs, text, files, PDFs, live WebViews, lists, mind maps, tables, index cards, sketches... anything!

The Shelf

You can't see it now but there's a handy utility Shelf available here. We'll discuss this in detail later.

Toolbar

The Toolbar contains the primary controls for working within Curio.
