

Part 7: The Curio Shelf

Status Shelf

Use the Status shelf to check the status of your projects and tasks with one glance. The Status button changes color to reflect the status of the currently opened project.

Projects

At the top you'll find your Curio projects grouped into one or more custom categories. Simply drag projects in from the Finder to associate them with a category, or use the Actions button menu (it looks like a gear) to add projects. You can right-click on a project to set categories as well. The Project Gallery (accessible via the Projects toolbar button) uses the same categories.

Tasks

At the bottom you can find your tasks. Use the "Tasks In" popup to choose which project or project category you wish to explore into and see exactly what's due or needs to be started. You can also group by global tag set if you wish to organize your tasks not by date, but by tag value.

The screenshot shows the 'Status' shelf interface. At the top, there's a green header with the word 'Status'. Below it, there are two sections: 'Projects In' and 'Sort By'. The 'Projects In' section has a dropdown menu set to 'School' and a gear icon. The 'Sort By' section has a dropdown menu set to 'Status'. Below these are five project entries, each with a colored circle icon, a project name, and a status message:

- Literature 202** (purple circle): Task is due tomorrow!
- Architecture 314** (orange circle): Task will start in 5 days
- Environmental 253** (blue circle): Task is due in 23 days
- French 201** (blue circle): Task is due in 30 days

Below the projects is a 'Tasks In' section with a dropdown menu set to 'School' and a gear icon. Underneath is a 'Group By' section with a dropdown menu set to 'Due Date'. The task list is organized into time-based categories:
