Part 10: Tips & Tricks

Advanced Secrets

Pressing Shift-X when a figure is selected will show or hide a checkbox.

Pressing X when a figure is selected will check or uncheck a visible checkbox.

Press and hold the Q key to go into Quick Zoom mode where you can see everything, select and move items, then release Q to zip back to wherever your mouse pointer is.

Pasting or dropping text from your WebKit-based browser, like Safari, into your idea space will automatically add a attribution line so you know where it came from.

Use ⌥⌘C and ⌥⌘V to copy and paste a figure's style and format to other figures.

Check out the Help > Curio Advanced Settings menu item!
