Presentation

A slideshow feature to showcase your ideas

Choose View > Begin Presentation to begin a slideshow of your idea spaces. Perfect for showing off your work with colleagues or a class of students. The presentation is interactive in that you can select figures, play multimedia, open documents, and use jump actions to move around the project.

Use the arrow keys to zip around the slideshow. Press Escape when you're ready to exit the presentation.

If evaluating items with a group you can press 0 through 5 to change the rating associated with a selected figure.

A default transitions can be set in the preferences. You can also set a specific transition for an idea space using the Transitions inspector.

Scaling
Toggle scaling by pressing the S key. When unscaled the idea space is displayed actual size, simply click and drag on background of the idea space to move around.

Cropping
By default Curio crops off unused whitespace below and to the right of your idea space content. However, within Curio > Preferences you can tell Curio to present the entire idea space.

Preferences
Curio has a number of other presentation options you can set in its preferences.
